

## **Running Revealing ... When Running from the CD with Data on a Zip Disk (Windows)**

NOTE: The following instructions are to be followed to run Revealing Archaeology from your CD. They presume you have already registered your software per the document "Registering Revealing ... When Running from the CD with Data on a Zip Disk."

Please be sure you have both the Revealing Archaeology CD and your Zip disk with your User Data available.

1. Insert both the Revealing Archaeology CD and your User Data Zip disk in the appropriate drives.
2. Launch Revealing Archaeology from the CD by doing the following:
  - A. Double-click on My Computer.
  - B. Double-click on the Revealing Archaeology CD.
  - C. Double-click on the Revealing Archaeology folder.
  - D. Double-click on Revealing Archaeology.exe (Depending on the settings on the computer you are using, you might not see the ".exe". It is the one with the orange icon with the gear.)
3. When the Revealing Archaeology display with the Browse and Register buttons appear, click the BROWSE button at the left.
4. A system Window will open in which you must select the RA\_UserData folder that is on your Zip disk.
  - A. At the bottom of the Window, click the arrow to show the list of all the drives on the computer. Select the Zip drive.
  - B. A list of the contents of your Zip disk will appear.
  - C. Highlight the folder called RA\_UserData at the top of the window.
  - D. Click the OK button.

NOTE: With certain Windows configurations, this will open a folder in the window. If it does, please highlight RA\_UserData and click OK again.

5. A screen that says Revealing Archaeology will be displayed and you will be asked to enter your password.
6. After you enter your password and click the "Check" button, you will see your Achievement Profile.
